

Supervisory Officer's Qualification Program

REGISTRATION NOW OPEN:

Module 1 – Supervisory Officer as System Leader

In this module, candidates explore evidence-based leadership styles to inform the development of their professional leadership profile within the context of system leadership. Candidates build an understanding of the importance of establishing and sustaining a shared vision for learning, strategic planning, communication and networking. There is a focus on workforce development, including leadership development, skills and strategies to enhance crisis prevention, intervention and management skills as well as conflict management and negotiation.
